» All the numbers are cents per minute in Sing currency, rounded off to the nearest cent. The first number is for landline, second is for mobile. For SingTel 001, the same rate applies to both landlines and mobile. All three telcos have their own premium, budget and calling card services.

» With Skype World Unlimited, you can now make “virtually unlimited” – there is a fair use limit of 10,000 minutes per month – calls to over 34 countries for a fixed monthly fee of US\$12.95 (S\$18). That works out to 0.2 cents per minute.

* Calls to mobile phones in Malaysia and Australia are not part of the area covered, so users revert to regular pay-as-you-use SkypeOut rates.
