

# SG future: Eight things to look forward to

Smart pills, thanks to 3D printing. These tailor release of drugs to a patient's needs.

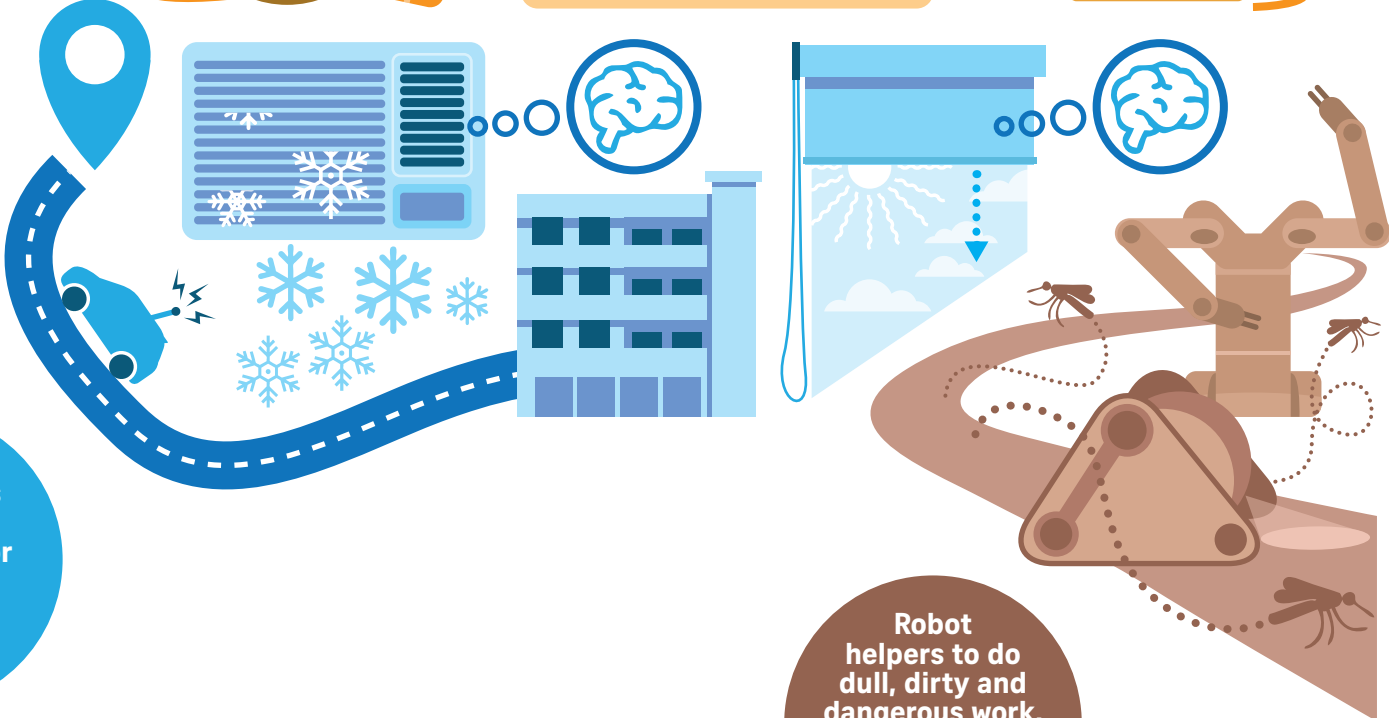

More green spaces, as driverless cars reduce land needed for roads and carparks

Old is gold: no more retirement age, older workers are assets. That's DPM Tharman Shanmugaratnam's hope.

Learn new skills when you need to, whether you're 18 or 80.

Smart homes and smart cities make for cooler, smoother living.

Robot helps to do dull, dirty and dangerous work, like crawl into drains to check for mosquitoes.

More flights to the region as air traffic in Asia soars.

Banks design their services to put clients, not products, at the centre.
