

Attitudes towards cyber incidents

The Cybersecurity Public Awareness Survey 2018 asked: In the past year, have you ever been a victim of the following types of cyber incidents?

Yes No Not Applicable

My device started receiving many advertisement pop-ups after browsing online

My data was stolen when an organisation I'm a customer of experienced a cyber incident

I keyed in my login details in a phishing website

I bought something online but did not receive it

My device was infected by ransomware, and all my files were locked

My device was controlled by hackers illegally

Victim of at least one cyber incident
